

SPC Slack Administrator/Content Manager: can be done remotely

Stanford Parents' Club (SPC) Slack allows parents/guardians to pose questions to other families, answer questions based on their own experiences, and share information and announcements of interest to other Stanford parents/guardians.

SPC Slack includes information about health and wellness, hidden gems, the freshman parent experience, graduation, student financial wellness, Stanford lore, visiting Stanford tips, the Parents' Club calendar of events, volunteer opportunities, and more. The SPC Slack Team facilitates and moderates this ongoing conversation amongst parents/guardians.

The club's VP of Communications oversees this program and serves as advisor for the Chairs. The Slack team will work with the club's President to invite parents/guardians to join Slack. At the end of the year, the Slack team will prepare/update a program report and submit it to the VP of Communications.
